**Note:**

\* At the request of the applicant, for the urgency of the work, a coefficient is applied to the tariff in the amount of - 1.2 (in this case, the word "Urgent" should be indicated in the application);

\*\* For registration of work off-peak hours (18.00-9.00), weekends and holidays, a coefficient is applied to the tariff in the amount of 1.3;

\*\* For the examination and paperwork on weekends and holidays, a coefficient of 1.3 is applied to the tariff;

\*\*\* For the classification of products according to the FEACN codes, an expert / hour is used in cases of complexity of classification and the formation of the necessary documents by an expert, as well as if it is necessary to inspect on-site (clause 3e).

Tariffs can be adjusted taking into account generally accepted macroeconomic indicators (inflation rate, consumer price index).
